York

YO26 6AS

Phone:07511 630224

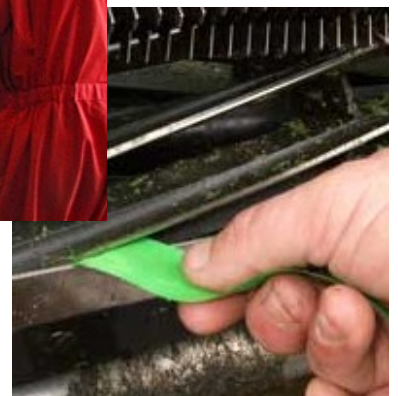

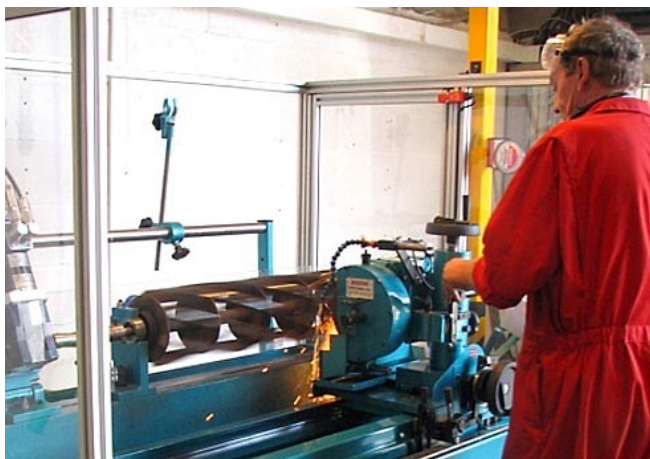

Following the purchase of a Hunter Cylinder Grinder in 2009 for the sharpening of our own fleet of mowing equipment, we are now pleased to extend this service to new clients for this winters' servicing regimes.

Cutting cylinders can be spun or relief ground as well as bed knife grinding to match.

Cutting units can be collected and stripped with pre - agreed parts replaced, then ground and set up ready for return.

Rapid facing can also be undertaken to restore the front edge of the bed knife.

Please call Simon on 07511 630224 for more details or quotes.
